23rd July 2024

 **EV Charging points Update: all technical upgrades have been completed and we are now waiting final permission from Braintree District Council, following which UKPN will be able to supply power to the Village Charging Points.**

 **ECPC have joined the “Cycle Way Committee” with a view to a cycle path being introduced initially from Earls Colne to Coggeshall.**

 **ECPC have submitted a funding request to Braintree District Council for a compostable toilet to be installed at the New House Road Allotment Site.**

 **The Village now has four community workers Paul, Dean, Vern and Dave. They are currently working on a new rota system to ensure bins and grass cutting is maintained.**

 **“No Mow” of the Village Greens is coming to an end. The ECPC are aware this action has been somewhat divisive. Therefore, going forward the ECPC will ensure any future discussions in this respect are clearly notified in advance so that any Villager who wishes to have their voice heard may attend the relevant ECPC monthly meeting.**
